# Compliance

The following whitepaper is intended to be a technical overview. It is not intended to be comprehensive nor to be the final design. Noncritical aspects are not covered.

This paper consists of information given for discussion purposes only and does not represent investment advice of any kind. Further, it does not constitute an offer to sell shares or securities, nor does it constitute a solicitation to buy such shares or securities.

None of the information found within is intended to influence any investment decision nor should it be the basis of an investment decision of any kind.

Investment advice for investment in any security, or any tax or legal advice should only be given by an investment advisor, and SpaceT is not an investment advisor.

SpaceT encourages readers to seek appropriate and independent professional advice to inform themselves of the legal requirements and tax consequences of any investments they make, both within SpaceT and within the blockchain industry as a whole. Investments should only be done with the help of an independent financial advisor within the context of the countries of their citizenship or residence, and

their place of business with respect to the acquisition, holding or trade in SpaceT or any other tokens.

Please note that this Whitepaper does not constitute an offer to sell, or the solicitation of an offer to buy, for any person for whom it may be unlawful to participate in a token sale.

Those for whom it is unlawful to participate should not participate. Consult with your own lawyer or accountant to determine whether it is lawful for you to participate in this token sale.

This Whitepaper should in no way be construed as being intended to create a contract for investment. This Whitepaper (version 1.0) may be revised, with the newest edition always appearing on our website. For each revision cycle, we will provide notes on what has changed and the justification for the change.

Updated versions of the Whitepaper (as indicated by consecutive edition numbers) may contain information which may override, clarify, or contradict previous editions, in which case the latest version should be considered

the most accurate and up to date. Because of this, versions which are found outside of the SpaceT website may contain out-of-date or inaccurate information.

# Disclaimer

The attached white paper is meant to describe SpaceT current anticipated plans for developing its business and SpaceT Tokens. Nothing in this document should be treated or read as a guarantee or promise of how Moon's business will develop or of the utility or value of SpaceT; the document outlines our current plans, which could change at our discretion, and the success of which will depend on many factors outside our control, including marketbased factors and factors within the cryptocurrency industries, among others. Any statements about future events are based solely on our analysis of the issues described in this document, and our analysis may prove to be incorrect.

Purchasing SpaceT is subject to many potential risks, some of which are described in this paper, and some of which are provided in the FAQ on <https://www.mymoon.app>. These documents, along with additional information about our business and SpaceT, are available on our website at <https://www.spacet.netlify.app>.

Purchasers of SpaceT could lose all or some of the value of the funds used to purchase SpaceT.

# INTRODUCTION

SpaceT focuses on a better understanding of the earth in all its aspects, through the European Space Agency (ESA) and is an international organization dedicated to space exploration. In order to understand beyond what we can't see, SpaceT is in charge of maintaining relationships between cryptoassets and non-profit organizations.

The world is changing. Technology specifically blockchain has disrupted the traditional way of doing business. From finance to the Space industry, blockchain has found a way to improve current business models and created countless ways to utilize these spaces.

SpaceT provides an expansive network of income-generating platforms for the user. Within the platform, SpaceT holders will be able to earn rewards from staking. The platform also offers an NFT marketplace and swap. SpaceT rewards holders with many different ways of generating passive income, but also desires to give back to those outside the crypto space. With ESA, SpaceT will accomplish this by giving back to a variety of charities with different causes. SpaceT aims to be the one-stop that will incorporate the biggest needs in the cryptocurrency space.

## Overview

SpaceT offers a robust DeFi platform, allowing users to swap between different cryptocurrencies, earn passive income through staking and farming that evolve as the blockchain technology progresses.

# Upcoming SpaceT Utilities

SpaceT wanted to create added value to our token by giving back to those outside of the crypto space, reaching a wider network of individuals. SpaceT desires to leave an everlasting impact on people, benefiting future generations. With ESA, SpaceT will look towards donations to charitable organizations, helping those in need.

Yield farming lets users lend or stake their crypto in exchange for interest and rewards similar to how an investor earns interest on money in a savings account.

Holders of SPC will be able to do this by adding their tokens to the Spacetharvest yield farms earning interest while allowing other potential holders to borrow assets from the lending platform. Harvesting SpaceT is a risk-free way to earn passive income with some of the most competitive rates on the market.

# SSwap

## What is Swap

Token swaps are the most common way of interacting with SSwap. For end-users, swapping is straightforward: a user selects a BEP20 token that they own and a token they would like to trade it for. Executing a swap sells the currently owned tokens for the proportional amount of the tokens desired, minus the swap fee, which is awarded to liquidity providers. Swap

## Why SSwap

Swapping with SSwap is a permissionless process. Swaps using SSwap are different from traditional order book trades in many central exchanges where they are not executed on a first come, first serve basis. Rather, swaps execute against a passive pool of liquidity, with liquidity providers earning a percentage of fees proportional to their capital committed.

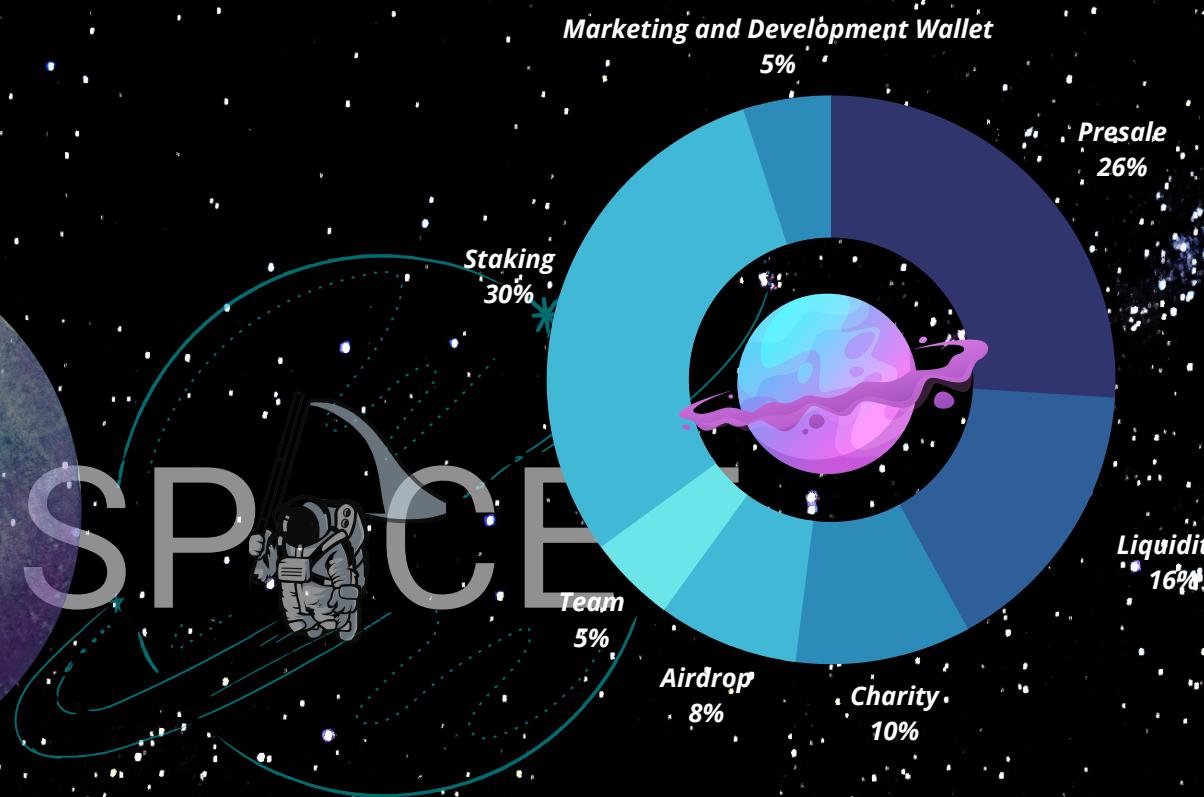

# Tokenomics

**NAME: SPACET**

**SYMBOL: \$SPC**

**MAXIMUM SUPPLY: 100,000,000**

## Transaccion Fee

With SPC, each buy and sale incurs a 5% transaction fee, which is distributed accordingly:

- 2% Development and Marketing
- 2% Automatic Liquidity Pool

SPACET WHITEPAPER V1  
SUBJECT TO CHANGE

## Automatic Liquidity Pool (LP)

Each transaction's buy and sell fee contributes 2% toward automatically generating further liquidity on PancakeSwap. This benefits those that choose to hold SPC long term. Liquidity is the measure that ensures investors always can buy and sell SPC and by increasing liquidity with each trade SPC provides their investors with a healthy token and chart.that will continue a growth trajectory well into the future.

## Staking Rewards

To reward long term investors in SPC who stake their tokens, 30% of the token supply is allocated to staking rewards. This will provide a steady stream of passive income to the holders using SpaceT platform to help secure and validate transactions on the network.

## SPACET Marketing & Development Wallet

In order to promote the SpaceT ecosystem, the development and marketing wallet will receive an initial token allocation of 10%. While each buy and sell fee contributes automatically to the marketing and development wallet. SpaceT has provided a healthy allocation to this wallet, as the ecosystem will need to undergo extensive growth to be a viable player on the market globally. No project will be able to grow without a substantial number of investors. In order to achieve a consistent growth of investors, SpaceT plans to partner with numerous influencers and marketers meeting those needs. A partnership with Legacy Capital, a blockchain and media marketing consultant group, will further expand SpaceT outreach to other investors. Expenses incurred from the development and marketing wallet will be open and transparent, establishing trust and rapport with our investors.

# Roadmap

**Q2 ~ 2021**

- Planning and development
- Launch of website, white paper and social networks
- Smart contract development
- Focus on building a strong community

**Q3 ~ 2022**

- Presale
- Presale v2
- Round 1 of Airdrop
- Round 2 of Airdrop
- listed in: Cointiger, P2PB2B
- listed in: PancakeSwap, CoinGecko and CoinMarketCap

**Q4 ~ 2022**

Airdrop distribution

Staking launch

Legal Registration

Listed on Bithumb and Kucoin

**Q5 ~ 2022**

- Governance system
- loan platform launch
